

The chart displays the composition of the foreign-born population in the Netherlands over a 24-year period. The y-axis represents the number of residents in millions, ranging from 0 to 5.5. The x-axis shows the years from 2000 to 2023. The bars are stacked by country of origin, with the following countries listed in the legend: Peoples R China, South Korea, Netherlands, England, Australia, USA, Japan, Spain, Denmark, Canada, France, Sweden, Chile, Singapore, Portugal, Israel, Latvia, Brazil, Colombia, and Switzerland. The chart shows a steady increase in the total foreign-born population, with a significant rise in the number of residents from China starting around 2015, and a notable increase in the number of residents from the USA and France in the early 2020s.
